

9.7.21

Our material costs continue to see historical increases, especially steel. As anyone who owns one of our products can attest, we pride ourselves on quality and require a large amount of steel to produce a product built to last. We only use American steel and strive to provide quality jobs for our employees. As a result, we must increase our prices effective immediately on all future orders. Anyone that already has a deposit down and is in our production queue won't be affected.

I'm extremely proud of our company values and didn't take this decision lightly. We appreciate everyone's understanding and continued support as we continue to be the heart of an authentic sauna experience and the cleanest burning wood furnace on the market from the small town of Tower, MN.

Sincerely,

A handwritten signature in black ink that reads "Garrett Lamppa".
